

Module: Credentials Tracking

Inspectors are looking closer than ever to ensure all imaging professionals met credential requirements throughout the inspection period.

How do busy imaging centers keep up?

The **QC-Track Credentials Module** is the paperless solution for the challenges of imaging professional credential tracking:

- ▶ Personalized reminder schedules for each tracked professional
- ▶ Automatically generated email notices with links to organizational training
- ▶ Credential dashboard to help track credential status across departments
- ▶ PDF documentation and certs attachment for complete records
- ▶ Central database storage eliminates duplication and travel to remote sites
- ▶ Inspector-ready reports available at any time from anywhere on your network

QC-Track Credentials Module:

options that span diagnostic imaging's requirements

Standard

Track periodic training, certification, and reviews across imaging departments

- Set personalized renewal schedules
- Send email alerts for expiring and overdue credentials
- Attach credential certificates for complete electronic records

- Image Wisely/Image Gently
- MR Safety Training
- ALARA
- CPR, etc.

Enhanced

Track detailed CEU/CME and exam counts by modality

- All the features of **Standard**, plus additional workflows to:
 - Track CEU/CME thresholds for fixed and sliding renewal periods
 - Track exam counts by modality, per ACR requirements
 - Add the same credit for multiple users and credentials at one time

- ACR/MQSA/FDA credentials
- physician credentials
- state regulations

Specialty

Specialty for Mammo to meet FDA EQUIP enhanced requirements

- All the features of **Enhanced**, plus additional workflows to:
 - Track image quality feedback and corrective action for EQUIP Question 1
 - Track image quality reviews for EQUIP Question 2
 - Generate reports to show departmental status and gaps for ongoing management and inspections

- Paperless FDA EQUIP for questions 1, 2, and 3*

... **Centralized paperless credential tracking for your entire imaging team!** ...

*Specialty for Mammo requires QC-Track for device QC and the QC-Track Planner module.

Reduce duplication, eliminate licensing gaps, and ensure inspection readiness.

Paper Can't Keep Up

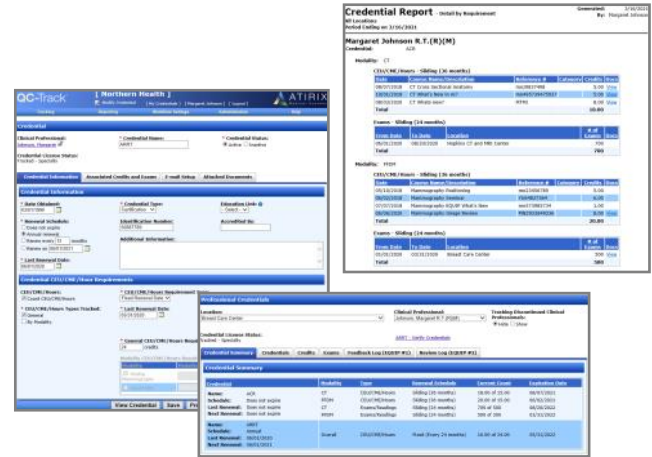

Imaging facilities are finding it harder to stay ahead of credential tracking needs. *Why? Complicated spreadsheets and paper credential files.*

With pooled reading groups and floating staff, professional credential tracking has become one of the most complex administrative processes in imaging departments.

Paper binders, hanging folders, and spreadsheets are no longer good enough.

Simplify Compliance

The paperless QC-Track Credentials module centralizes professional credential tracking and automates notifications. The result? *Always Inspection Ready™*

QC-Track: Complete Paperless QCIS™

- Device Quality Control
- Credentials Management
- Personal Apron Tracking
- QC Event and Document Tracking
- Ultrasound HLD/Exam Traceability

Upgrade to an Enterprise QCIS™

QC-Track has been proven since 2008 in thousands of MQSA inspections. And QC-Track is more than MQSA. Modules are available across modalities. Whether it is ACR, TJC, DNV, AAPM, AIUM, or state requirements, your entire imaging quality team can be Always Inspection Ready™.
